OPTIMIZED WORKPLACE

Innovative Solutions for your People, Processes and Assets

KONICA MINOLTA

READY FOR YOUR WORKPLACE TO WORK FOR YOU?

Go beyond functionality to create an environment that promotes security, efficiency, collaboration and safety. From the parking lot to the lobby, through the office and warehouse to the truck bays, Konica Minolta offers innovative solutions for your people, processes and assets.

LOBBY

Receptionist, Concierge & Security Services

Supplement your team by outsourcing to our highly-trained resources for reception, concierge and inbound communications.

Virtual Visitor Management

With a digital receptionist, an interactive kiosk or wall station provides visitor check-in and check-out, facility and staff information.

Visitor Registration

An automated kiosk quickly scans any state-issued ID or drivers' license; time stamps the visit, and automatically archives details of the visitor.

Entry Access Control

Whether using proximity cards, video surveillance or facial recognition, intelligent security solutions ensure only authorized people enter your facility.

OFFICE

Conference Room Management

With Teem Meeting Room Management, we can automate scheduling of common rooms and help to optimize workspace usage through analytics.

Internal Access Control

Manage who has access to what areas of the facility. Track and report on unauthorized attempts to access secured areas.

Digital Transformation

Shed the need for cumbersome file storage. Work faster and smarter by managing content more efficiently. Create and share usable information from your documents, files and records.

OFFICE OPERATIONS

Fleet Services

Outsource the day-to-day upkeep of your printing and copying equipment. On-site staff can minimize downtime and allow your employees to focus on their responsibilities.

Managed Print Services

Learn the actual cost of document printing and let data-driven processes reduce consumables by monitoring and tracking device usage.

Mailroom

Outsource mailroom operations to trained specialists and proven systems that track chain of custody, digitize incoming mail and automate distribution.

Copy Center

Streamline your printing operations and boost your company collaterals by allowing knowledgeable, on-site personnel to manage your centralized reprographics department.

Managed IT

Control IT spend and maximize efficiency by outsourcing network operations. Our secure, all-in-one, IT ecosystem with encrypted backup allows us to remotely monitor and manage the entire system for you.

SHIPPING & RECEIVING

Operational Oversight

Vehicle recognition, container tracking, risk of injury mitigation and theft deterrence, all these benefits are available through our intelligent, IP video analytics.

Process Outsourcing

Manage your inbound/outbound freight with our specialists and best practices. We ensure the efficient flow of freight, scaling staff as needed based on your volume and frequencies.

PRODUCTION FLOOR

Workflow Intelligence

Boost efficiency through programmable sensing equipment that goes beyond video to provide notification of environmental events such as equipment temperature, process stoppage and workforce loitering.

Workforce Safety

Be notified of unauthorized access to dangerous areas or of high risk activities such as running. Retain high resolution video and audio to help protect your workforce AND your company.

WAREHOUSE

Stock Shrinkage

Create a comprehensive plan with unparalleled image quality and programmable video analytics that can protect your inventory night and day.

Maximize Use of Space

Use your valuable square footage more efficiently by identifying over-utilized and under-utilized areas with video analytics and heat-mapping technology.

Control Labor Cost

Consider outsourcing warehouse labor, coverage redundancy is built-in, while providing you the flexibility to ramp up or down depending on periodic projects or seasonal cycles.

GROUNDS

Video Perimeter

Identify threats before they get to your facility. Create an unmanned, perimeter with our German-made, intelligent IP cameras that offer superior functionality and analytics that can even distinguish between wildlife and human movement.

Employee Safety

Provide the peace-of-mind your employees deserve while mitigating the risks that come with late night departures from the building. Afterhours monitoring of our video systems can ensure that events do not go unnoticed.
